

## **Department of Communication Sciences**

### **Tenure Track Faculty Positions**

The [Department of Communication Sciences](#) in the [College of Arts & Sciences](#) at [Case Western Reserve University](#) is actively implementing a new strategic plan that is distinctive for its interdisciplinary and technology driven approaches to addressing medically and biologically oriented topics relating to normal and disordered speech, language, and hearing. The department offers: an undergraduate major and minor in Communication Sciences and Disorders and a minor in Health Communications; a Master of Arts degree program in Communication Sciences (reaccredited by the CAA in fall 2008 to 2016) that focuses on the development of the clinician-researcher; and the Ph.D. in Communication Sciences.

This fall, the department will occupy custom-designed research, instructional, and administrative space in a new building built by our clinical partner, The Cleveland Hearing and Speech Center. The Cleveland Hearing and Speech Center's professional staff has provided outstanding clinical instruction to our speech-language pathology students for over 60 years. The state-of-the-art features of the new building will further enhance the quality of the clinical education received by our speech-language pathology students, and solidify our partnership with the Cleveland Hearing and Speech Center for many years to come.

The department invites applications for one or more tenure-track positions at the rank of Assistant Professor, Associate Professor, or Professor. Candidates at all ranks under consideration must hold a Ph.D. by date of appointment. Clinically-oriented candidates holding certification in speech-language pathology by the American Speech-Language Hearing Association (ASHA), as well as non-ASHA certified speech, language, and hearing scientists with backgrounds in psychology, biology, cognitive science, biomedical engineering, computer

sciences and other related fields are welcome to apply. The successful candidate will be expected to develop a strong externally-funded research program, contribute to the department's undergraduate and graduate educational programs, and provide service that supports the strategic plans of the department, college, and university.

In addition, candidates applying for consideration at the rank of Associate Professor or Professor must possess a national or international reputation, respectively, for expertise in the candidate's line of research, a distinguished record of publication, and fulfill other qualifications necessary for a tenured appointment at the rank of Associate Professor or Professor at our institution, as stated in the Case Western Reserve University Faculty Handbook and in the tenure and promotion standards of the Department of Communication Sciences.

Candidates should provide a letter of application, a curriculum vitae, a statement of research interests and plans, a statement of teaching experience, and the names, addresses, and email addresses of four referees to whom we may write. Send electronic applications to Interim Chair Stephen E. Haynesworth, Ph.D. at [stephen.haynesworth@case.edu](mailto:stephen.haynesworth@case.edu). Alternatively, applications can be mailed to Pat Maar, Department of Communication Sciences, Cleveland Hearing & Speech Center, 11206 Euclid Avenue Room 410, Cleveland, OH 44106-7054. Complete applications received by November 30, 2009 will receive full consideration. In employment, as in education, Case Western Reserve University is committed to Equal Opportunity and World Class Diversity.
