

How To Buy: Scientific Lab Supplies & Equipment

COMMODITY DESCRIPTION

This commodity includes scientific lab supplies and scientific equipment.

VENDOR: [Fisher Scientific](#) **VENDOR CLASSIFICATION:** [Strategic Business Partner](#)

In 2000 the University entered into a partnership program with Fisher Scientific to provide scientific lab supplies and equipment to departments. Fisher Scientific offers CWRU a progressive solution for easy ordering of lab supplies and other selected products. This partnership is designed to grow and change to ensure that you, as users, are having your needs met. Initially, items on the contract pricing are based on previous CWRU stores' items and past usage information. However, we have challenged Fisher Scientific to introduce quality brand products that will continue to provide the greatest overall savings opportunities to the University over the life of this partnership. In return, we ask that you be receptive to utilizing this contract to enable CWRU to maximize savings.

Not Registered? Request access to the Fisher On-Line Order System through your Department Administrator. If approved, they will request set-up for you through Fisher at 216-368-2571.
