

Public Health Nutrition Internship Program **Graduate Outcomes**

**Over the past five years,
the program has met and exceeded all of the following outcomes:**

1. 100% of dietetic interns will complete all program requirements within time planned for completion.
2. 70% of program graduates will be employed within 3 months of graduation.
3. 80% of program graduates who take the registration examination will pass on the first attempt.
4. 80% of program graduates will be employed in the public health/community nutrition arena, either as first or subsequent jobs.
5. 50% of program graduates will hold leadership positions in employment and professional associations, be recipients of awards, or earn advanced credentialing.
